Art Unit: 3651

DETAILED ACTION

Election/Restriction

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-7, drawn to a side gaurd, classified in class 198, subclass 837.
 - II. Claims 8-16, drawn to a modular belt system, classified in class 198, subclass 850.
 - III. Claims 17-20, drawn to a method of forming a snap-on side guard, classified in class 198, subclass 617.
- 2. The inventions are distinct, each from the other because of the following reasons: Inventions of Group I and Group II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because different types of side guards may be used in the combination claim. The subcombination has separate utility such as being usable on any other type of device needing a side guard such as a roller blade.

Application/Control Number: 09/909447

Art Unit: 3651

3. Because these inventions are distinct for the reasons given above and have acquired a

separate status in the art as shown by their different classification, restriction for examination

purposes as indicated is proper.

A telephone call was made to David L. Principe on 8/29/2002 to request an oral election 4.

to the above restriction requirement, but did not result in an election being made. Applicant is

advised that the reply to this requirement to be complete must include an election of the

invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the

inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently

named inventors is no longer an inventor of at least one claim remaining in the application. Any

amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the

fee required under 37 CFR 1.17(I).

6. Any inquiry concerning this communication or earlier communications from the examiner

should be directed to Rashmi Sharma whose telephone number is (703) 306-5952.
